THE UNITY MAP FORMS THE FRAMEWORK FOR BUILDING HOLISTIC ORGANISATIONS

The origin of 'The Unity Map' is the re-occurring expression of the 4 basic and fundamental energies that forms the building blocks of the natural world.

These forces include the Fire, Earth, Air and Water. That is used as symbolic placeholders in 'The Unity Map'.

This gives the ability to approach our personal, organisational design and development, with clearly defined foundations for holistic and balanced growth

STRUCTURE AND APPLICATION

The unity of the 7 principles of Kwanzaa with the 11 Laws of Maat, is the structure of the Map. This enables a general methods and systematic approach to achieve the principles outline in our celebration of Kwanzaa.

The connection of the objective of Kwanzaa to the associated divine Law of Maat. So, a specific objective of our cultural celebration of Kwanzaa can be achieved through the cultivation of natural law principles and values.

The pattern of the 4 basic forces is a consistent pattern across all expression of African cultural expression and sacred science. This is part of the Ancestral retention across the long history of African civilization.

The Unity Map serves as a model for designing and building organizations with deep psychological and spiritual roots for lasting growth by:

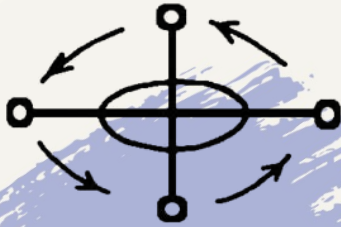

Focusing on holistic leadership that focuses on the needs of the community

Exploring the foundational energies that define the natural laws

Scaling our approach across personal, familial and community development initiatives.

THE UNITY MAP

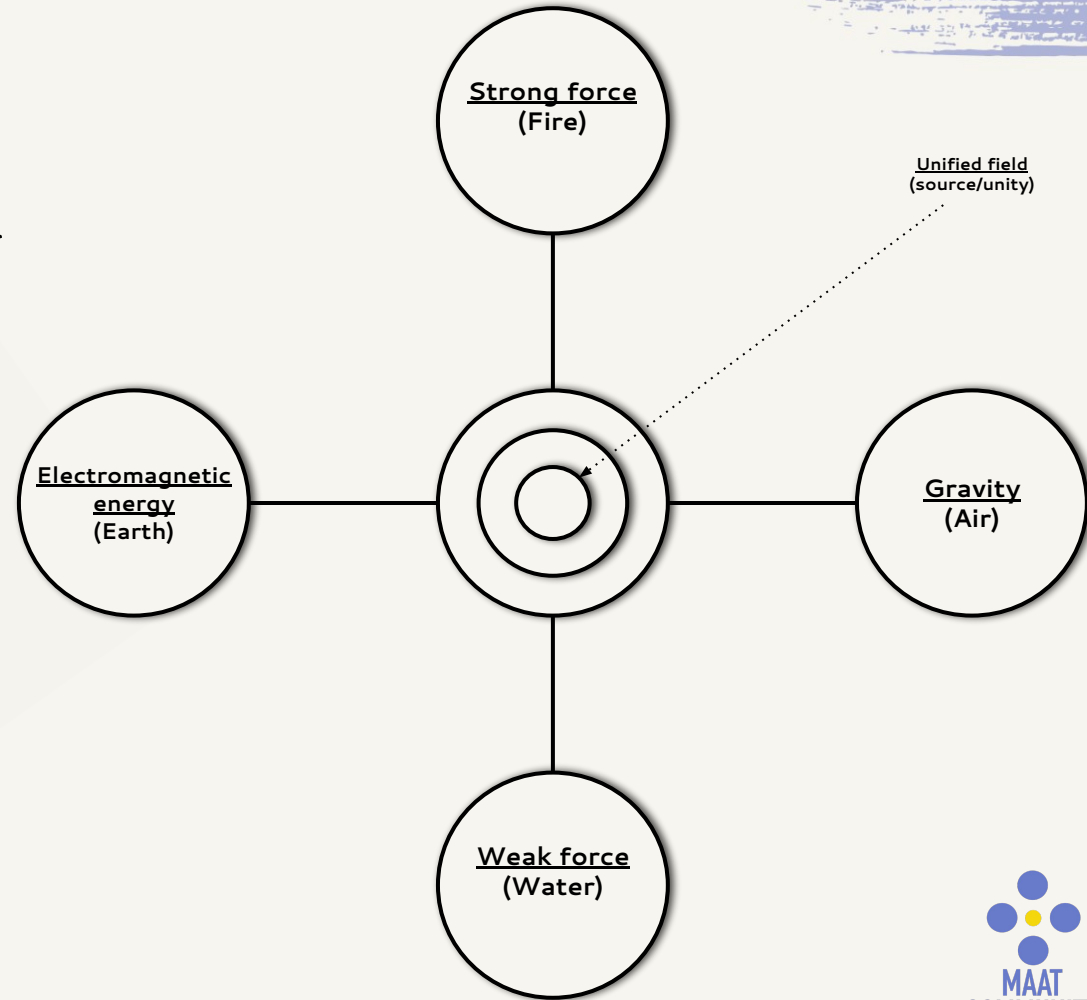

THE UNITY MAP: FOUR BRAINS

This is an original representation of the Brain, the mediator of all functions and actions. Developed in stages over million of years. This is the why, of African Life Science, spirituality and sacred science. The need to awaken the spiritual frontal lobe for balance and regulation of the negative energies of the lower, reptilian, beast and human brain

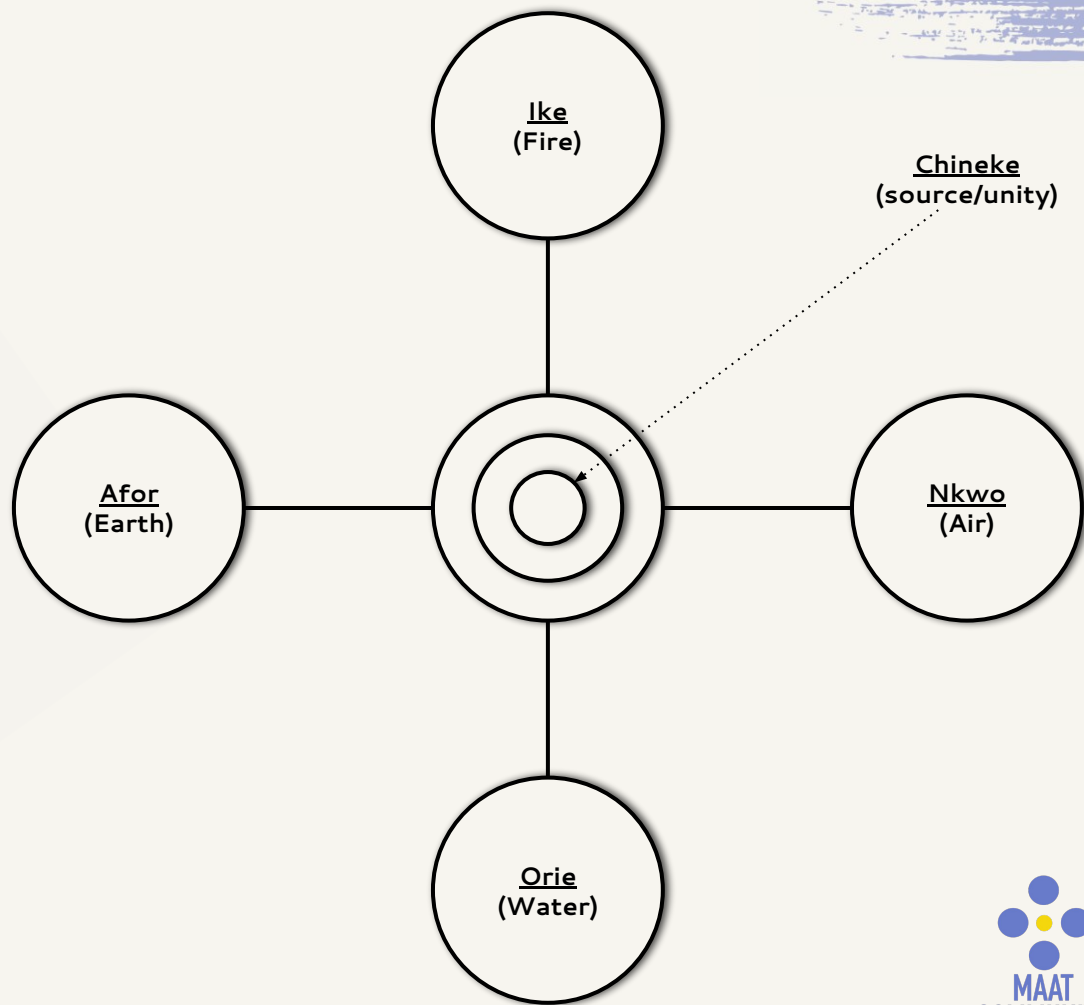

THE UNITY MAP: QUANTUM ENERGY

Representing energetic structure of matter. The symbolic representation of Fire, Earth, Air, and water is directly related to the physical and natural forces in nature. The unified source and balance of these forces is presented in work of Prof. Gabriel Oyibo, GAGUT, Gij, $j = 0$. The mathematical solution gives 4 elements

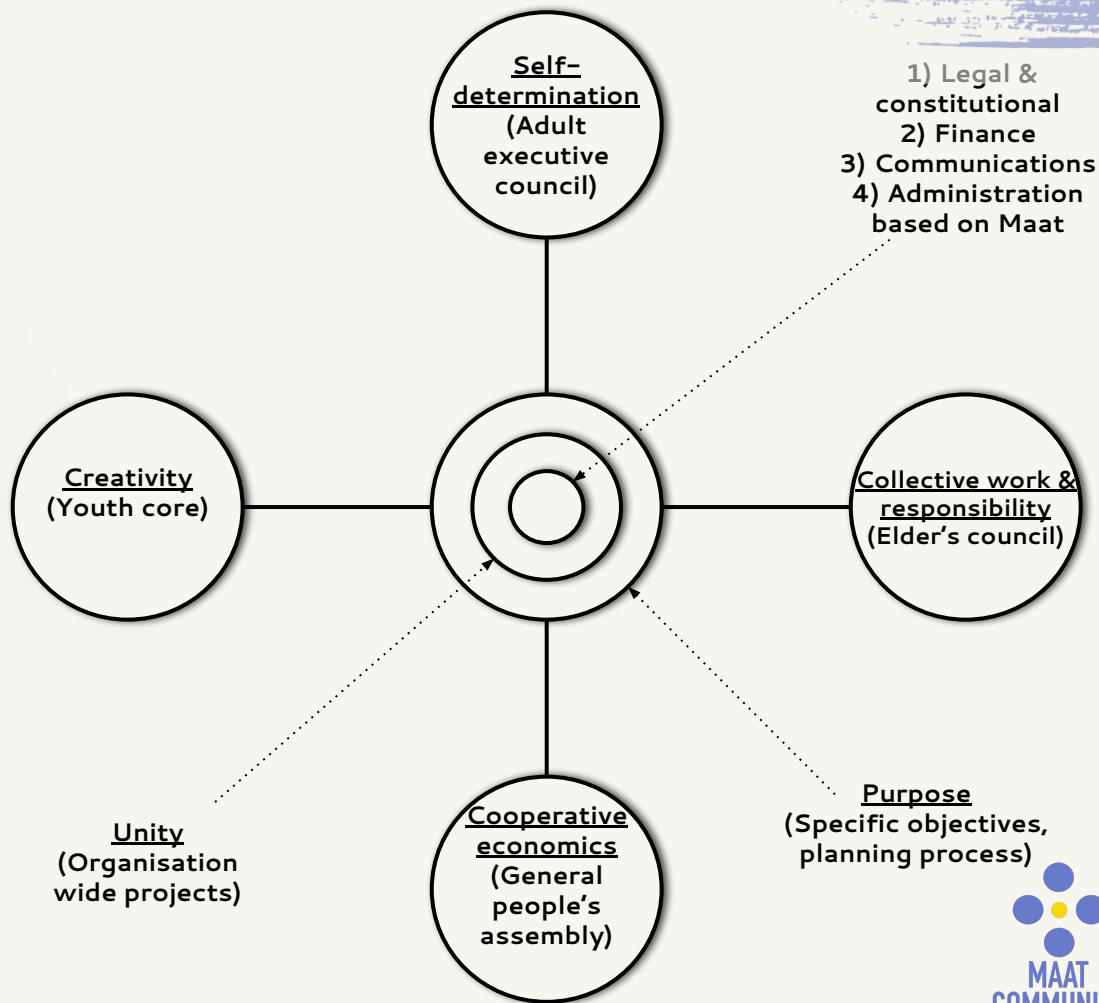

THE UNITY MAP: IGBO MARKET DAYS

The 4 Market days, represents the integration of the movement of energies into everyday levity. Everyone of born on a particular day representing this cosmic movement. We are then able to determine how these forces impact our personality, skills and abilities. Showing how to optimise and enhance our Talents.

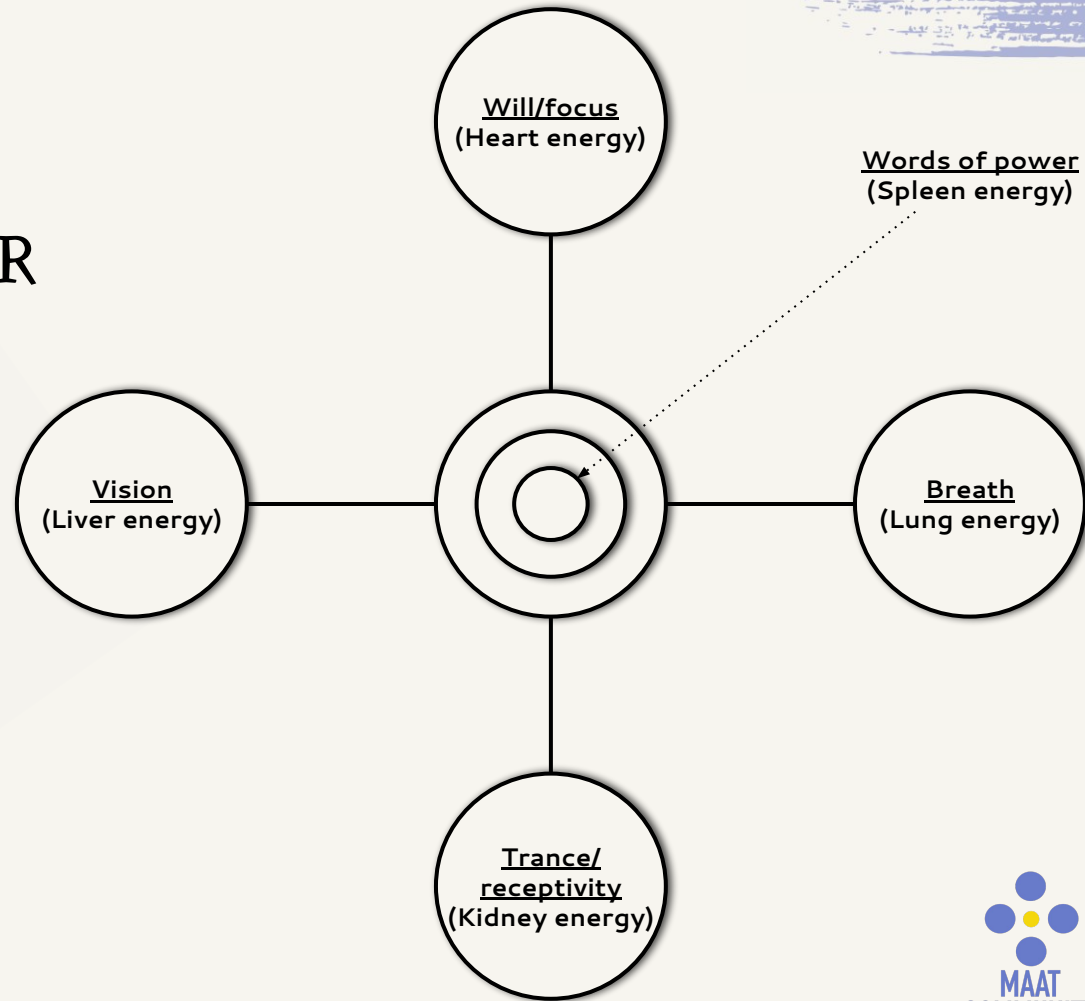

THE UNITY MAP: THE FAMILY

The family is the Institution linking the individual for balanced participation into the community for collective empowerment, Balanced relationships from balanced individuals is the basis for our empowerment.

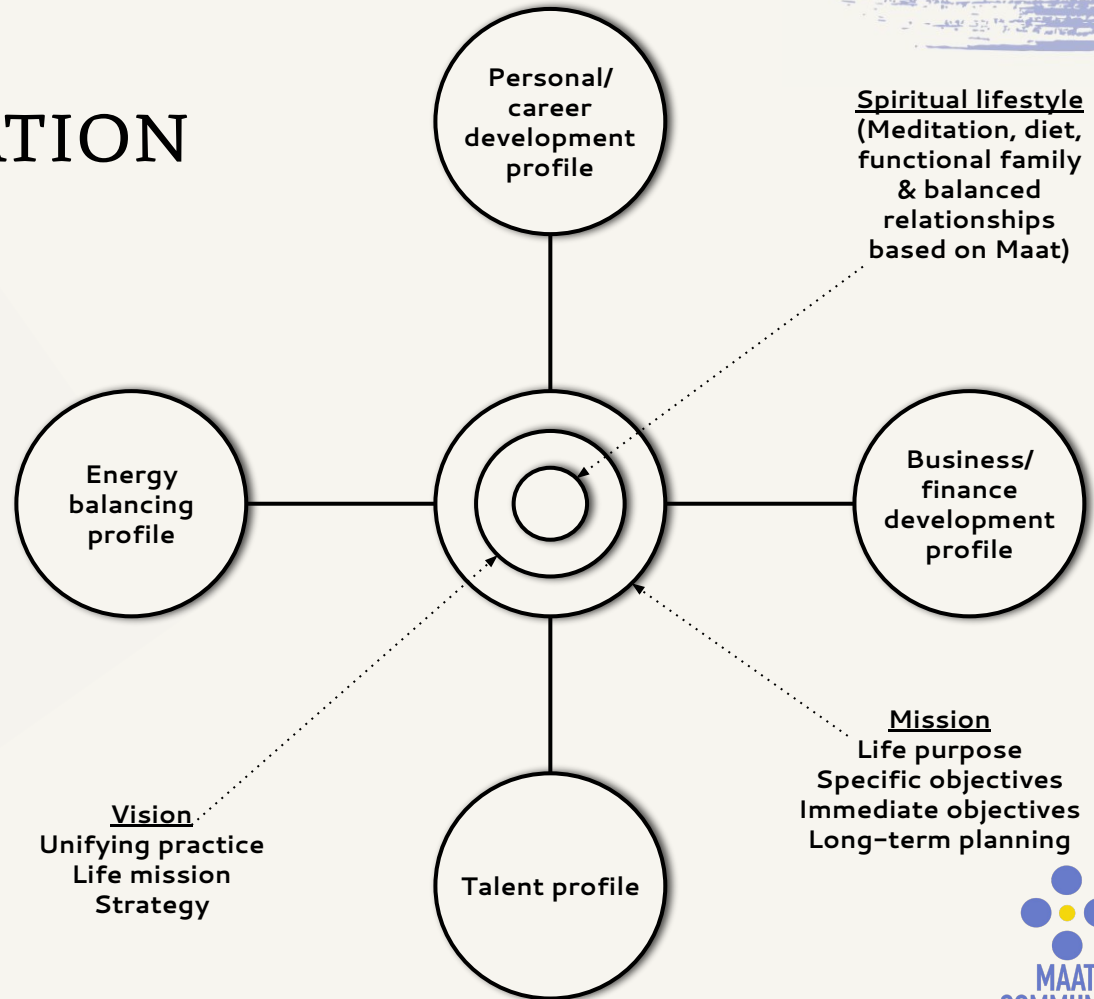

THE UNITY MAP: MEDITATION/SUPER LEARNING

The ability to Learn and Transform is the basis for the devotion necessary to establish the Unity on the various levels needed. This is foundation for the Science of super Learning or Meditation. This a life skill we all need to master.

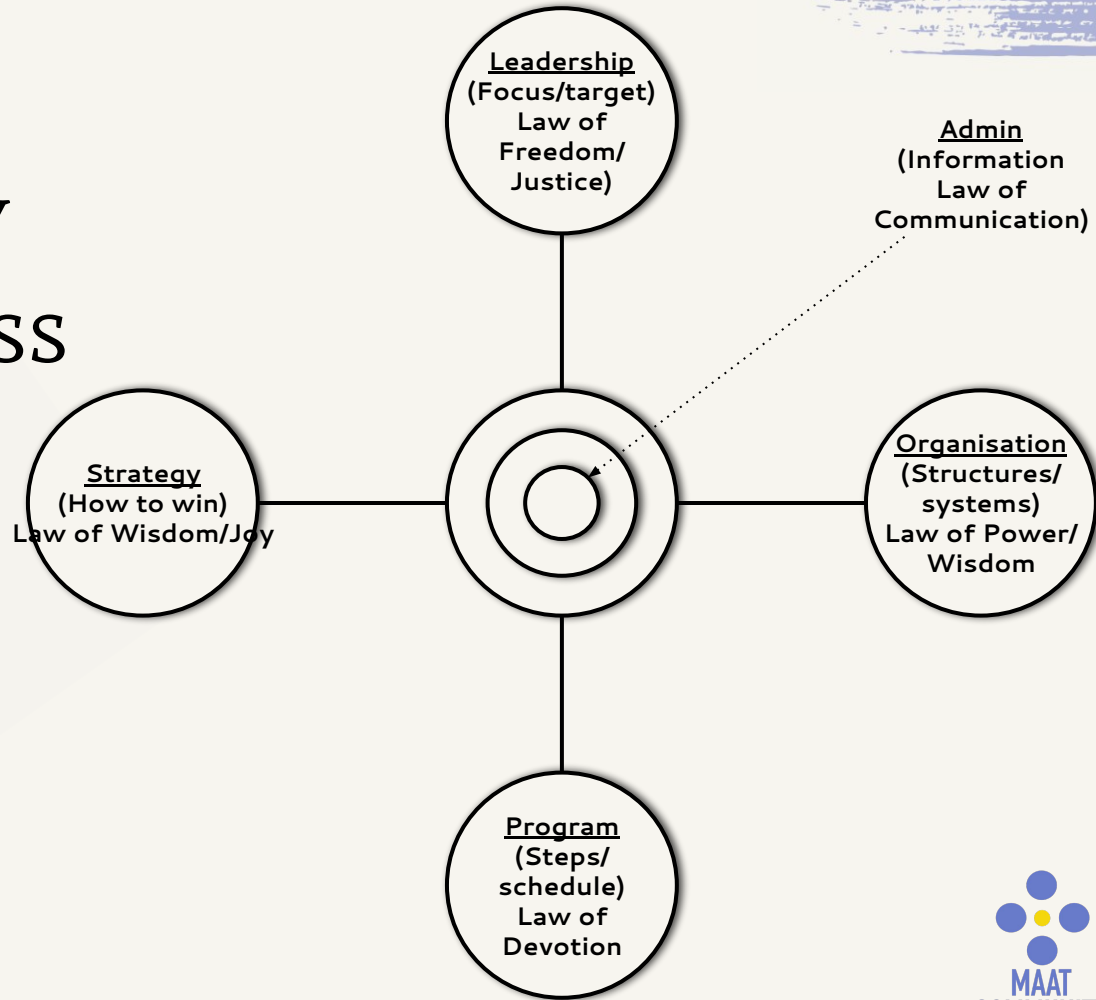

TALENT OPTIMISATION PROGRAM

Gaining Insights and knowledge into the energies guiding our Talents is the pathway to optimisation of skills, based on our Talents. This enables us to build the Institutions balanced for our personal, family and community needs.

THE UNITY MAP: STRATEGY & POLICY FORMATION PROCESS

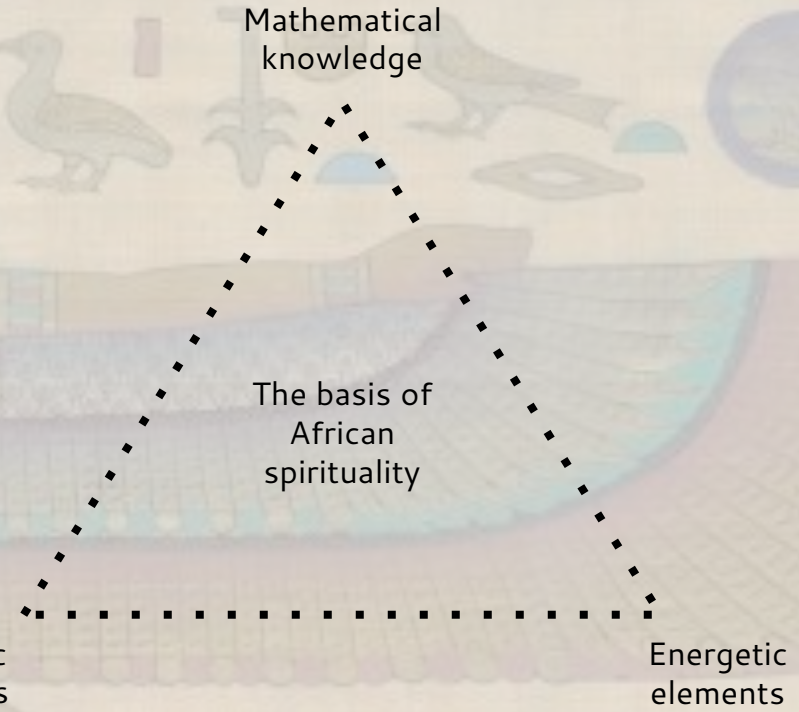

The need to balance our vision, organizations, Programs, guided by legitimate Leadership is the Key to our success. Legitimacy of Leadership is derived from What leads. The CODE is Leader.

THE CODE AS LEADER

The code is the foundation values and principles that underpins the natural world. These elements can be summarised as the Laws of Ma'at, represented symbolically as the feather of Ma'at.

This code is evident in all the varied cultural expression across African and the world.. Ark-Angels, Orishas, Neteru, Constants is science / Mathematics.

THE CODE AS LEADER

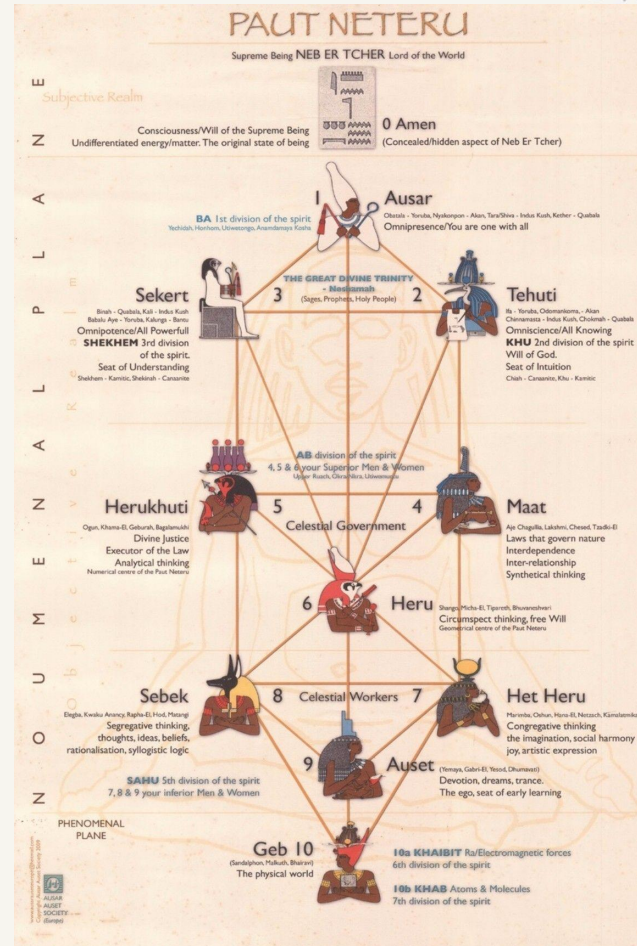

The elements of this code is represented symbolically as the leaves of the Tree of Life or the Paut Neteru.

The leaves will be the healing of the nations, bearing a different type of fruits every month.

But the key understanding are the energetic, cyclic and mathematical configuration of the system.

This is the reason the African system of spirituality and world-view underpins the whole of the African life science.

This then integrates with all the cultural, arts, architecture, music and Astro-Science practices.

MAAT: UBUNTU VALUE SYSTEM

0 :: Law of Peace: Your true and essential Self is Consciousness.

1 :: Law of Unity: Your true self is expressed as a oneness.

2 :: Law of Wisdom: Insight and knowing.

3 :: Law of Power: Understanding and application of structures.

4 :: Law of Order: The ordering of natural forces expressed through the 4 forces underpinning all life.

5 :: Law of Justice: The holistic and divine application of force to return and protect the laws of MAAT.

6 :: Law of Freedom: You have the power but not the right to ignore the Divine laws of nature.
